

I am Shahida Fareed, PsyD. I work as a Primary Care Behavioral Health Psychologist at a large Community Medicine Clinic within Geisinger Health system. My data consists of depression treatment outcomes using brief intervention. I used measurement-based outcome data with pre and post treatment Patient Health Questionnaire-9 scores. Results are as follows. If you have any questions please feel free to reach out to me at sfareed@my.adler.edu

Gender/Age Breakdown

Row Labels	Patient Count	Average age	Average # of encounters
FEMALE	55	41	3.07
